

Role of Teacher

- (1) Encourage learner to be an 'expert' in a certain area he/she become interested and exposed and to develop 'Database of Wisdom' under cooperation.
- (2) At appropriate moment encourage him/her to collaborate and to go out to ask other experts in the group and in the community to expand his/her and their human network for its sustainable development.

Evaluation :

- (1) Psychological involvement and elaboration: enjoyable, satisfying
- (2) Number of associated words responding his/her direct and in-direct experiences
- (3) Vertical and horizontal distance between associated words taking into account the attributes
